

We are seeking **DOCTORAL STUDENTS**
to join the 2020 NAEP Internship Program.

INTERNSHIP GOALS

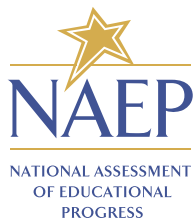

CONTRIBUTE to the NAEP program by engaging in research in one of the four following topic areas: Psychometrics & Statistical Methods, Process Data, Policy-relevant Research, and Envisioning Quantitative Information for Digital Media.

ADVANCE secondary analysis and methodological developments using data from the National Assessment of Educational Progress.

ABOUT NCES

**NATIONAL
CENTER FOR
EDUCATION
STATISTICS**

The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States.

QUALIFIED APPLICANTS

- Doctoral students in educational measurement, statistics, information science, sociology, psychology, economics, computer science, or other related fields.
- Two years of coursework in a Ph.D. program or a master's degree completed in a relevant field.
- Experience with applying advanced statistical and/or psychometric methods
- Experience analyzing data from large-scale surveys and assessment data with complex sampling design is a plus.
- Sophisticated experience with statistical software packages such as Stata, R, or Mplus.

INTERNSHIP DETAILS

- Opportunity to work directly with researchers from the NCES and AIR
- 10 weeks, starting May 26, 2020
- Based in AIR's office in Crystal City, VA
- Paid internship (Up to \$12,000 for 10 weeks)

APPLICATION DEADLINE: FEBRUARY 18, 2020
