EMERGING ISSUES IN EARLY CHILDHOOD:
Knowledge + Collaboration = Transformation

ABOUT THE CONFERENCE
CHILD’s inaugural conference promotes science, innovation, collaboration and partnership, providing a forum for multiple perspectives to improve the early years for children. The conference will be relevant for researchers, practitioners, and policymakers in the field of early child development. The focus of the conference will be global, with a special focus on Singapore and Southeast Asia.

Our CHILD Biennial Conference 2022 will feature
Keynote Speeches  I  Panel Sessions  I  Oral Presentations  I  Lightning Talks  I  Workshops

Plenary sessions will focus on the broad theme of the conference, addressing emerging issues and advances in early child development.

Break out sessions will offer a deeper dive into the three intersecting subthemes:
Knowledge + Collaboration = Transformation
