**In Collaboration With: AERA Motivation SIG and
APA Division 15 Race & Diversity Committee**

Our Panelists

DR. FRANCESCA A. LÓPEZ
The Pennsylvania State University

DR. TERRELL R. MORTON
The University of Illinois Chicago

DR. AKANE ZUSHO
Fordham University

About the series

A series intended to call in fellow education and motivation researchers who are interested in learning more about how to conduct and support multicultural and critical research practices. Through four sessions and a capstone at AERA, we will provide members with the tools and guideposts to engage in scholarly work that moves beyond outdated conceptions of race- or culture-neutrality and instead leverages research paradigms, questions, methods, and dissemination practices that result in the production of responsible educational psychology research.
